## TAACCCT Performance Reporting Q&A Series-April 2018

4/26/18

Moderator: [Kristen Milstead](#)

Speaker: [Scott Estrada](#)

This topic is Performance Reporting During Program Activities Extension and Closeout. We covered how the timeline of the fourth year of your grant affects performance reporting—that is, which outcomes can be reported during the final six months of the grant period if the six-month extension of program activities was taken, which can be counted during closeout, and the implications for all of your outcomes and other affected aspects of your grant.

The second half of the webinar was devoted to responding to performance questions on this and other topics.
