

Executive Summary

Success Factors for America's Promise Grantees

12/14/18

Moderator: [Cheryl Martin](#)

Speaker(s): [Cheryl Martin](#), [Heidi Sheppard](#)

This webinar introduced the grantees to the success factors which will be used to help the grantees gauge their progress to a successful program and will help inform future technical assistance (TA) products. The webinar helped to ensure that the grantees are aware of these factors, understand how they were developed and how they will be used, and to provide answers to their questions.

Heidi Sheppard, Project Lead and TA Coach for America's Promise, presented information about how the Success Factors were developed, why they were developed at this time and why the grantees may find them useful. Cheryl Martin presented the six Success Factors and explained how they are relevant to the America's Promise projects. AP coaches provided examples of ways their grantees have addressed each factor.

Grantees were made aware that these Success Factors will be used in a two-part webinars series entitled, "Assessing Your Progress at the Mid-Point of Your America's Promise Grant," where grantees will be able to participate in a mid-grant self assessment.

The webinar engaged attendees in the discussion and ended with a Q&A session and announcing the upcoming Technical Assistance webinars.

Run of Show
